

Actions and Market Instruments

TWG in-person meeting

Agenda and participants

Date: 30 June 2026 – 2 July 2026

Time: 9:00 – 6 :00 CEST

Location: Hybrid - Amsterdam and via Zoom

The AMI Technical Working Group and the Secretariat team met in person to discuss and align key phase 2 issues. The dedicated time allowed for in-depth discussions, direct engagement, and problem solving, helping the group work through complex topics more efficiently than would have been possible in regular virtual meetings. The meeting resulted in meaningful progress and helped build alignment on several priority issues. On some topics not yet resolved, discussion will continue during August/September in subgroup meetings, brought to TWG for decision and converted into the draft standard.
